

2022-2025 Strategic Vision Plan

with Key Indicators

Addendum Report

From April 17, 2024

City Commission Wrap-Up Workshop

Background:

Strategic Government Resources (SGR) facilitated the North Port City Commission and Staff originally held their 2023 Strategic Visioning session on March 7 & 8, 2023, at which time they established a series of revisions to the City's Vision, Mission, and Organizational Value Statements, in addition to modifying and adding a number of changes to the Pillars, Priorities, and Performance Indicators. Following the presentation of the revised Strategic Vision Plan, the Commissioners subsequently participated in an exercise to rank their Priorities to provide staff with further direction.

The Prioritization Exercise resulted in some concerns by the City Commission that they may have proposed too many priorities for the organization to track and expressed a desire to revisit the Strategic Vision Plan with SGR in an effort to further discuss the prioritization process.

The Strategic Vision Plan involved seven (7) Pillars, sixty-nine (69) Priorities, and a total of ninety-one (91) Key Success Indicators. On September 25, 2023, SGR facilitated a second session which included a variety of means in which the City Commission could interpret their prioritization results, and in the end, it was decided to have the Commissioners review the Priorities a second time with the goal of reducing the number to a smaller, more manageable number. The City Commission regrouped again on April 17, 2024, for a final time to review the Strategic Vision Plan and make a few final changes which have been reflected in this report.

The following report represents the outcome of the Strategic Vision Plan process which resulted in the reduction and refinement of the proposed Priorities to thirty-four (34) across the seven (7) Pillars. The process included the identification of several special Programs/Initiatives and the listing of Key Related Projects under the various Priorities to provide further guidance to Staff in the implementation of the 2022-2025 Strategic Vision Plan.

It should be noted that SGR has made some minor editorial adjustments in the wording and classification of some Priorities, and new Programs/Initiatives to aid in clarity of the

Strategic Vision Plan, in addition to moving various Key Success Indicators to different Pillars and Priorities in response to the City Commission revisions to the Plan.
